

EXCLUSIVE CUSTOM RUN

Boston & Maine 70 Ton 3 Bay MOW Hopper in N Scale

From **Bluford Shops**

Offered as an extremely limited edition. Bluford Shops will produce only the quantity reserved in this run, and this car will not be offered again.

Boston & Maine, and Guilford Rail System used 70 ton hopper cars in ballast and MOW service. Numbered in the 10000 series, these weathered, battered and bruised cars could be seen system wide, some are still still in MOW service on the GRS/PAR/PAS system.

These cars from Bluford Shops feature: diecast slope sheet-hopper bay-center sill assembly; injection molded plastic sides, ends, and hopper doors; fully molded brake tank, valve and air lines; slope sheet braces; separately molded vertical brake rod and lever assembly (a first on an N scale open hopper!); body mounted brake hose detail; stone load; body mounted magnetically operating couplers; close coupling; and roller bearing trucks.

These cars will be available in the following 3 road numbers; #10006, #10251, #10291
